The efforts of Congressman Steph ens of Texas to curtail the powers of the secretary of the interior in his government of the affairs of the Indian Territory, are worthy of the endorsement of all people who bolieve ir free government. Secretary Hitchcock has been more autocratic in dealing with the Indian Territory than the ezar has in dealing with the government of Manchuria. With his system of befuddling and senseless orders, he has created conditions there that should never have been permitted, and which it will take statehood to remove. If congress had the Interests of the people truly at heart, the Indian Territory would have statehood before the rows bloom. Don! son freraid,
